Brownsville ISD Demographics

- Large urban school district
- 52,000 students
- 96% economically disadvantaged
- 92% Hispanic origin
- 30% limited English proficiency

Group-to-group disproportionality comparisons are not available for minority student groups and economically disadvantaged students, given the high percentages of Hispanic and Economically Disadvantaged students enrolled in Brownsville schools (+90%). However, reductions in overall student suspensions represent a positive impact on the reduction of disciplinary disproportionality (Kim, et al., 2010; Losen & Gillespie, 2014; and OCR, 2014).

Goose Creek ISD Demographics

- A more diverse and balanced environment
- 22,228 students
- 16% black students
- 58% Hispanic students
- 23% white students

Goose Creek ISD affords the opportunity to examine the impact of Review360 on the disciplinary disproportionality exhibited in the black student group as well as reductions in overall suspensions. Prior to the implementation of Review360, Goose Creek ISD had a level of out-of-school suspensions for black students that matched the OCR (2014) benchmarks demarking a critical need.
