

Students Soar with Navy

Demonstrated success with Navy assessments guiding learning

Unprecedented student learning gains in:

- Both subjects
- Each grade

Navy provides results that are:

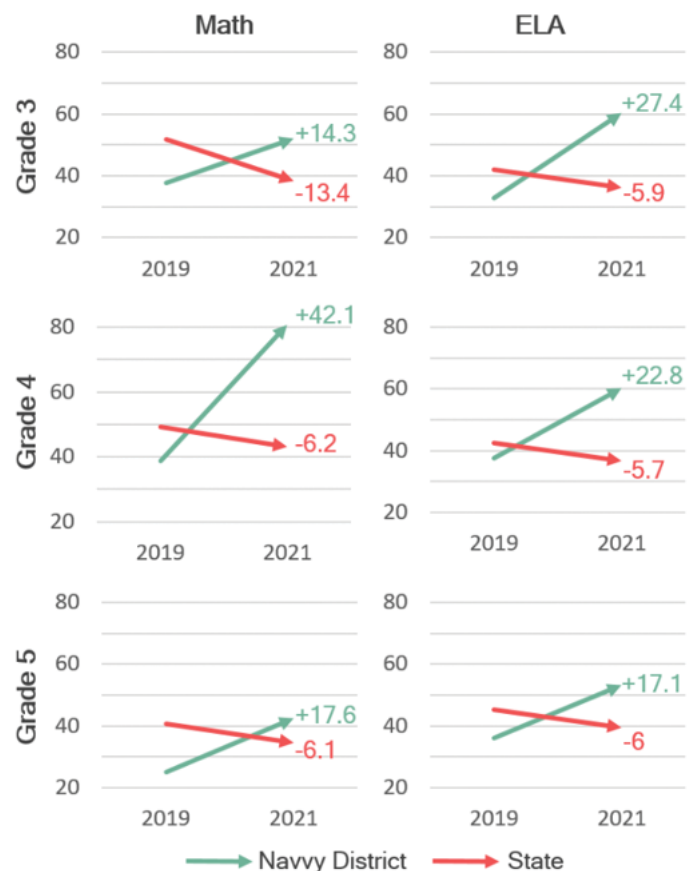

- Granular
- Timely
- Accurate

Three must-have elements for assessment to effectively guide instruction

"Navy changed our students and our school. Navy is a game changer for guiding personalized learning and seeing real change. We tried other assessment systems, but data was too general and came too infrequently."

— Brooke Knight,
Scintilla Instructional Coach

Learning gains from 2019-2021

While the state averages in student proficiency in Georgia significantly decreased from 2019 to 2021, students in Scintilla's district made significant gains over the same time period.
