### Where do I bubble age norms or time of year norms on the answer sheets?

The choice for Age Norms or Time-of-Year norms is found in the Hand Scoring Box.

**Note:** When scanning answer sheets, and there are neither age norms nor grade norms marked, the answer sheets will not scan. One solution is to type “a” or “g” and then rescanning would not be needed. Or you may change the answer sheets and then rescan.
