## DEMOGRAPHIC INFORMATION OF THE SPEAKER

This individual was asked a series of demographic questions. The questions and answers are listed below. (If an individual answered "no" to any of these questions, related items were not presented.)

Are you married or do you have a significant other? Yes

Do you have children? Yes

Are you currently employed or have you been employed in the past three months? Yes

Have you ever received speech therapy? Yes

Are you currently receiving speech therapy? No

What was the approximate date of your most recent speech therapy? 12/15/2007

## INTRODUCTION TO IMPACT RATINGS

Impact ratings indicate the extent to which various aspects of the stuttering disorder affect the speaker's life. Impact scores range from 1 to 5 and can be used to determine impact ratings, which are labeled as follows: mild, mild-to-moderate, moderate, moderate-to-severe, and severe. The table below shows the impact ratings for this individual for the four sections of the OASES instrument, as well as the overall test.

### IMPACT SCORES AND RATINGS

Scale	Raw Score	Items Answered	Impact Score	Impact Rating
General Information	52	20	2.60	Moderate
Reactions to Stuttering	92	30	3.07	Moderate-to-Severe
Communication in Daily Situations	81	25	3.24	Moderate-to-Severe
Quality of Life	71	25	2.84	Moderate
Overall Impact	296	100	2.96	Moderate

### End of Report

NOTE: This and previous pages of this report contain trade secrets and are not to be released in response to requests under HIPAA (or any other data disclosure law that exempts trade secret information from release). Further, release in response to litigation discovery demands should be made only in accordance with your profession's ethical guidelines and under an appropriate protective order.
