July 2009

Pearson Now Offers MMPI-2-RF™ Medical Practice Briefing Webinars

Composed of 338 items, with the RC (Restructured Clinical) Scales at its core, the MMPI-2-RF (Restructured Form) builds on the strengths of the MMPI®-2. It features 50 new and revised empirically validated scales and takes only 35-50 minutes to administer.

This fall we're offering two opportunities for you to attend "MMPI-2-RF: Medical Practice Briefing," a webinar focused on the test's special features and benefits pertinent to medical settings. Find out why so many psychologists working with medical patients are utilizing the MMPI-2-RF.

Topics to be discussed include:

- Overview of the special features and benefits for medical psychologists
- Overview of medical uses of the MMPI-2-RF (i.e., bariatric evaluations, chronic pain evaluations, etc.)
- Overview of the MMPI-2-RF literature to date

When: Tuesday, September 15, 12:00 pm Eastern
Thursday, November 5, 12:00 pm Eastern

Length: Approximately 1 hour (includes a live question and answer discussion)

Presenter: Dr. Yossef S. Ben-Porath, co-author of the MMPI-2-RF

Prerequisite: Attendance in a prior Basic MMPI-2-RF webinar or full-day CE workshop is required to participate in the Medical Practice Briefing webinar.

Cost: None
