## ASSIST™ Software Frequently Asked Questions General

### **What version of the Java Runtime Environment do I need to run ASSIST software on Mac OS 10.x?**

The Java Runtime Environment (JRE) version 1.4.2 will run ASSIST software on both Mac OS 10.3 (Panther) and Mac OS 10.4 (Tiger). However, version 5 of the JRE will only work if using Mac OS 10.4 (Tiger).
