# CLINICIAN'S QUICK REFERENCE GUIDE

On behalf of our employees, authors, and partners, we wish to convey our profound gratitude for the opportunity to work with professionals like you around the globe. It is an honor to be connected through our assessments to the work that you do.

We have continued to refine our research and data collection methods to ensure that the scientific rigor, validity, and reliability of our assessments and tools are second to none. We are also committed to making continued enhancements to our customer experience. Our team has been addressing all of our processes — our website, ordering, shipping, and invoicing — so the quality of your interaction with us can equal that of our products.

My dedication to the work we do here with Pearson's assessments spans three decades. My colleagues and I are passionate about our products and the impact they can make in people's lives.

Learn more about our commitment to supporting you at [PearsonAssessments.com/Promise](https://PearsonAssessments.com/Promise).

Joe Grosdidier  
*Vice President, Global Marketing*  
*Pearson Clinical Assessments*

## What's new for you?

We've updated a number of our tools to help you diagnose and support your clients. You can get details on these new products in this guide or visit [PearsonAssessments.com/New](https://PearsonAssessments.com/New)

- MMPI®-3
- WIAT®-4
- WRAML™3
- MACI®-II
- Everyday Memory Survey
- D-REF Adult
- PEDI-CAT
- Bayley™-4
- Brown EF/A Scales™

**Free access to over 100 digital manuals and stimulus books on Q-global® extended until July 31.**

Visit [PearsonAssessments.com/Telepractice](https://PearsonAssessments.com/Telepractice) for more information.

*(Look for the **Q-global Resource Library** at the top of the page)*

# Find more on our website!

This guide highlights some of our most popular solutions, but be sure to check out our website for more products and detailed information.

# Telepractice Resources

## Telepractice success tips

Whether you are considering telepractice for the first time, or you're a seasoned veteran, we've compiled many resources to help support your telepractice needs. If you are considering telepractice, please consult your professional organizations, licensing boards, professional liability insurance providers, and state laws and regulations regarding telepractice.

### Before the session

- Adhere to your state's licensure laws.
- Familiarize yourself with the platform.
- Get to know the assessment's tasks.
- Identify and address potential distractions.

### During the session

- Position the camera so you can see the client's entire face.
- Ensure the examinee's mic is positioned so you can see their mouth clearly.
- Ensure the correct digital stimulus book page is displayed.
- Discontinue testing if the audio/video quality is poor or the client becomes distracted.

### After the session

- Include in your test report that the test was administered via telepractice.

Learn more at [PearsonAssessments.com/Telepractice](https://www.pearsonassessments.com/telepractice)

Did you know that **Q-global**<sup>®</sup>, Pearson’s web-based system for test administration, scoring, and reporting offers digital editions of many of our most popular assessments? Pearson is constantly working to expand digital product offerings that can support you in your practice. Here’s some of our assessments that are available for telepractice.

**At [PearsonAssessments.com/Telepractice](https://PearsonAssessments.com/Telepractice) you can find:**

- Product guidance
- Letter of No Objection
- Professional guidance and training
- Informational videos
- Guide to disinfecting test materials
- How to use facilitators
- Preparation letter

# Personality

Get insights toward clinical diagnoses and treatment for a variety of disorders by measuring personality traits. Our assessments are regularly used for psychotherapy, forensic evaluations, pre-employment evaluations, presurgical evaluations, college counseling programs, substance abuse programs, and criminal justice/corrections.

## MMPI 2 RF\*

Minnesota Multiphasic  
Personality Inventory-2  
Restructured Form\*

¡Sí!

### MMPI-2-RF®

The Minnesota Multiphasic Personality Inventory-2-Restructured Form® provides an empirically validated, psychometrically up-to-date assessment, supported by a comprehensive body of ever-growing research. Composed of 338 items, the MMPI-2-RF enhances clinical effectiveness and efficiency.

AGE 18+ | 0:00 35-50 min | C

## MMPI-2 Minnesota Multiphasic Personality Inventory-2

¡Sí!

### MMPI®-2

Used by clinicians to assist with the diagnosis of mental disorders and the selection of appropriate treatment methods, the Minnesota Multiphasic Personality Inventory®, Second Edition has supported clinicians since its publication in 1989.

AGE 18+ | 0:00 60-90 min | C

## MMPI A RF\*

Minnesota Multiphasic  
Personality Inventory-Adolescent  
Restructured Form™

¡Sí!

### MMPI-A-RF®

Clinical, counseling, and school psychologists can use the Minnesota Multiphasic Personality Inventory-Adolescent-Restructured Form™ to assess major manifestations of adolescents' psychological dysfunction. It is the most up-to-date and brief MMPI adolescent assessment supporting diagnosis and treatment planning in a variety of settings.

AGE 14-18 | 0:00 25-30 min | C

## MMPI-A Minnesota Multiphasic Personality Inventory™- ADOLESCENT

¡Sí!

### MMPI®-A

The Minnesota Multiphasic Personality Inventory®-Adolescent, published in 1992, provides an empirically based measure of adolescent psychopathology with age-specific scales and tailored reports.

AGE 14-18 | 0:00 45-60 min | C

**A contemporary assessment for mental health, medical, forensic, and public safety settings.**

Featuring new English- and Spanish-language norms and updated items and scales, the 335-item MMPI-3 builds on the history and strengths of the MMPI instruments to provide an empirically validated, psychometrically up-to-date standard for psychological assessment. The MMPI-3 is a contemporary assessment for mental health, medical, forensic, and public safety settings.

**Key features:**

***New, nationally representative English-language normative sample***

Updated for the first time since the mid-1980s and designed to match US Census Bureau demographic projections for 2020, the MMPI<sup>®</sup>-3 normative sample includes 1,620 individuals (810 men and 810 women) ages 18 and older from diverse communities throughout the United States.

***Spanish-language translation and normative sample***

For the first time, the Spanish translation of the MMPI includes norms derived from a sample of 550 US Spanish-speakers (275 men and 275 women).

***New and updated items and scales***

The MMPI-3 includes 72 new and 24 updated items used to develop new scales (Eating Concerns, Compulsivity, Impulsivity, and Self-Importance) and to update existing MMPI-2-RF scales.

***Comparison groups***

Descriptive data from a broad range of settings make it possible to compare an individual's results with relevant groups in mental health, medical, forensic, and public safety settings.

***Administration time***

Only 25–35 minutes to administer by computer, and 35–50 minutes by paper and pencil.

***Backed by extensive research***

Detailed analyses reported in the Technical Manual indicate that interpretation of updated MMPI-3 scales can be guided by over 450 peer-reviewed MMPI-2-RF publications.

Get more details and sign up to receive updates on the MMPI-3 at [PearsonAssessments.com/MMPI-3](https://www.pearsonassessments.com/MMPI-3)

**MACI-II**  
Millon® Adolescent Clinical Inventory-II

iSí!

**Developed for teens.  
Updated for today.**

Brief and easy to administer, the Millon® Adolescent Clinical Inventory, Second Edition (MACI®-II) keeps the challenges of today's youth in mind to assess personality patterns, expressed concerns, and clinical symptoms. Today's youth are living in a world that's "bigger" than ever. Face it together with MACI-II.

### Key features

- Revised test items and several new scales including:
  - Disruptive Mood Dysregulation
  - Post-Traumatic Stress
  - Reality Distortions
- Scales: 11 Personality Patterns, 4 Expressed Concerns, 9 Clinical Syndromes, 33 Grossman Facets
- Diagnostic considerations reflecting *DSM-5* criteria
- Interpretive and Profile Reports for males, females, and a gender neutral option
- Revised Treatment Guide to reflect empirically supported therapeutic approaches

13-18

20-25 min

Get 20/20 insight for the unique issues teens face at  
[PearsonAssessments.com/MACI-II](https://PearsonAssessments.com/MACI-II)

### MCMC-IV®

The Millon® Clinical Multiaxial Inventory-IV comprehensively identifies the level of an adult's emotional, behavioral, or interpersonal functioning. Used in multiple settings including therapeutic, medical, government, and forensics, MCMC-IV insights help you identify deeper clinical issues, better equipping you to build a therapeutic alliance and make better treatment decisions. Based on Dr. Theodore Millon's Evolutionary Theory, its interpretive reports

**MCMC-IV**

MILLON® CLINICAL  
MULTIAXIAL INVENTORY-IV  
by Theodore Millon, PhD, DSc, with Seth Grossman, PsyD,  
and Carrie Nelson, PhD

iSí!

provide an in-depth analysis of personality patterns and symptom dynamics, and include suggestions for therapeutic management.

18+

25-30 min

C

## MAPI®

MILLON® ADOLESCENT PERSONALITY INVENTORY  
by Theodore Millon, PhD, DSc, Catherine J. Green, PhD, and Robert B. Meagher, Jr., PhD

### MAPI®

Suitable for a range of mental health and guidance professionals in various settings, the Millon® Adolescent Personality Inventory assesses personality patterns, expressed concerns, and behavioral correlates.

AGE 13-18 | 0:00 20-30 min | C

## M-PACI®

MILLON® PRE-ADOLESCENT CLINICAL INVENTORY  
by Theodore Millon, PhD, DSc, Robert Tringone, PhD, Carrie Millon, PhD, and Seth Grossman, PsyD

### M-PACI®

Millon® Pre-Adolescent Clinical Inventory identifies emerging personality styles and current clinical issues faced by today's youth, and helps the clinician understand what is preventing them from thriving.

AGE 9-12 | 0:00 15-20 min | C

## MCCI®

MILLON® COLLEGE COUNSELING INVENTORY  
by Theodore Millon, PhD, DSc, Stephen N. Strack, PhD, Carrie Millon, PhD, and Seth Grossman, PsyD

### MCCI®

The Millon® College Counseling Inventory (MCCI®) is a multi-dimensional personality assessment that can help address struggling students' concerns and get them back to a healthy state of mind.

AGE 16-40 | 0:00 20-25 min | C

## MIPS® REVISED

MILLON® INDEX OF PERSONALITY STYLES REVISED  
by Theodore Millon, PhD, DSc

### MIPS® Revised

The Millon® Index of Personality Styles, Revised assesses normally functioning adults who are experiencing work, family, or social relationship difficulties. It can be used in both counseling and employment settings.

AGE 18+ | 0:00 25-30 min | B

### MBMD®

The Millon® Behavioral Medicine Diagnostic is an assessment of psychosocial factors that may support or interfere with a medical patient's course of treatment. Brief yet comprehensive, the inventory includes three norm groups (General Medical, Pain, and Bariatric patients) and 165 items to help gather a range of information that might otherwise require a battery of instruments

## MBMD®

MILLON® BEHAVIORAL MEDICINE DIAGNOSTIC  
by Theodore Millon, PhD, DSc, Michael Antoni, PhD, Carrie Millon, PhD, Sarah Minor, PhD, and Seth Grossman, PsyD

to obtain. Interpretive and Profile Reports are also available.

AGE 18-85 | 0:00 20-25 min | C

# Depression & Anxiety

There's a growing need for mental health support and we're committed to making sure you've got the most reliable tools at your disposal. These assessments for depression, anxiety, and related conditions can be used throughout the entire treatment cycle, from identifying concerns to measuring progress. They are brief but thorough, and can be used in a variety of settings from counseling to hospitals.

## BDI®-2

Beck Depression Inventory®-2 is a brief, criteria-referenced assessment for measuring depression severity. This new edition of the Beck Depression Inventory®, the most widely used instrument for detecting depression, takes just five minutes to complete and is more clinically sensitive than ever. It consists of 21 items to assess the intensity of depression in clinical and non-clinical patients. Each item is a list of four statements arranged in increasing severity about a particular symptom of depression. It can be used in a variety of clinical settings by most Allied Health clinicians.

## BAI®

Beck Anxiety Inventory® is a brief, criteria-referenced assessment for measuring anxiety severity and level. With the Beck Anxiety Inventory, patients respond to 21 items rated on a scale from 0 to 3. Each item is descriptive of subjective, somatic, or panic-related symptoms of anxiety. BAI helps assess a broad range of emotional, physical, cognitive, and behavioral symptoms that represent important dimensions of anxiety, and has been found to discriminate

well between anxious and non-anxious diagnostic groups. It can be used in a variety of clinical settings by most Allied Health clinicians.

# BHS

BECK Hopelessness Scale®

## BHS®

Beck Hopelessness Scale® measures attitudes about the future. It can be used in a variety of clinical settings, and can be administered with the BDI®-2 and BSS® for a complete evaluation.

# BSS

BECK Scale for Suicide Ideation®

## BSS®

Beck Scale for Suicide Ideation® is an evaluation that helps measure a broad spectrum of attitudes and behaviors clinicians routinely consider when assessing a patient's suicide risk.

## BYI-2™

The Beck Youth Inventories™, Second Edition uses five self-report inventories to assess symptoms of depression, anxiety, anger, disruptive behavior, and self-concept in children and adolescents. Five inventories (Depression, Anxiety, Anger, Disruptive Behavior, and Self-Concept) each contain 20 questions about thoughts, feelings, and behaviors associated with emotional and social impairment in youth. Children and adolescents describe how

# BYI-2

BECK Youth Inventories™ – Second Edition

frequently the statement has been true for them during the past two weeks, including today.

## MASC™-2

Multidimensional Anxiety Scale for Children™, Second Edition assesses a youth's symptoms of anxiety to distinguish between important symptoms and dimensions that broadband measures do not capture.

## CTQ

Childhood Trauma Questionnaire reliably screens for a history of child abuse and neglect. This self-report tool is useful with individuals referred for a broad range of psychiatric symptoms.

Check out all of our depression and anxiety resources at [PearsonAssessments.com/MentalHealth](https://www.pearsonassessments.com/MentalHealth)

# Medical

Our personality assessments are also frequently used in medical settings and can be found on pages 4–7.

Medical conditions and mental health are often connected, and it's important to look at a variety of biopsychosocial factors before designing treatment plans. Our health psychology tests are used to identify the psychological, behavioral, and emotional factors that could impact a patient's response to medical care. They are also used as reliable predictors of positive treatment outcomes for many procedures, such as gastric bypass and spinal cord stimulation surgery.

## BHI™-2

Battery for Health Improvement™ 2 presents concise, coordinated assessments and evidence-based treatment guidelines for biopsychosocial issues most relevant in evaluating patients with injuries.

iSf!

 18–65 |  30 min |  B

## BBHI™-2

Brief Battery for Health Improvement™ 2 quickly assesses physical symptoms and psychological, environmental, and social factors that can impact a patient's response to a normal course of treatment.

iSf!

 18–65 |  7–10 min |  B

## P-3®

The Pain Patient Profile® assesses factors most frequently associated with chronic pain. It can provide an objective link between the physician's observations and the possible need for further assessment.

iSf!

 17–76 |  15 min |  B

## SCL-90-R®

Symptom Checklist-90-Revised® helps evaluate a broad range of psychological problems and symptoms of psychopathology. It is also useful in measuring patient progress or treatment outcomes.

iSf!

 13+ |  12–15 min |  B

## BSI®

The efficient Brief Symptom Inventory® provides patient-reported data to support clinical decision-making at intake and during the course of treatment in a variety of settings.

iSf!

 13+ |  8–10 min |  B

## BSI® 18

A shortened form of the BSI, the Brief Symptom Inventory® 18 gathers patient-reported data to measure psychological distress and psychiatric disorders in medical and community populations.

iSf!

 18+ |  4 min |  B

## What could you do with 40% of your time back?

The digital assessment workflow doesn't simply make the administration of an assessment less time-consuming, it also speeds up and improves the accuracy of the scoring and reporting process. It will literally transform the way you work and increase your efficiency, giving you back valuable time in your day — time you can spend doing what you're called to do — helping people make the most of their lives!

### **Q-interactive®**

Q-interactive® is a 1:1 iPad®-based testing system that helps administer, score, and report 20 different clinical assessments, including WISC®-V, WAIS®-IV, WMS®-IV, CVLT, RBANS, and more. With Q-interactive, you can create personalized batteries at both the instrument and subtest levels that are proven to:

- Better serve your clients and evolve your practice
- Minimize time spent on administering tests
- Streamline workflow and reduce manual data entry

### **Q-global®**

Q-global® allows clinicians to quickly and efficiently administer assessments, generate scores, and produce reports. Q-global houses many of our industry-leading assessment tools and is accessible from any internet-connected device at any time, in any location. More than 60 assessments are available on Q-global, including MMPI®-3, MACI®-II, BASC™-3, and Vineland™-3.

For more information, please visit [PearsonAssessments.com/Digital](https://www.pearsonassessments.com/digital)

# Cognitive

Need a reliable intelligence test? Or maybe you need to gauge daily living skills for an adult with declining cognitive ability. Whatever your cognition testing needs are, chances are we have a solution to help! These tools provide reliable data on a person's information processing skills such as speed, memory and storage, retrieval of information, reasoning abilities, and problem solving.

## WISC®-5

Wechsler® Intelligence Scale for Children, Fifth Edition measures a child's intellectual ability across five cognitive domains. The WISC-V gives school psychologists, clinical psychologists, and neuropsychologists unparalleled flexibility and interpretive power to gain a broad view of cognitive ability.

## WAIS®-IV

The Wechsler® Adult Intelligence Scale, Fourth Edition is the most advanced adult measure of cognitive ability and is based on recent research in the area of cognitive neuroscience. WAIS-IV includes 10 subtests that focus on four domains of intelligence: verbal comprehension, perceptual reasoning, working memory, and processing speed.

## WPPSI®-IV

Rooted in contemporary theory and research, Wechsler® Preschool & Primary Scale of Intelligence, Fourth Edition is an innovative measure of cognitive development for young children. Reporting includes a summary of the child's background, test behaviors, interpretation of scores, recommendations, and optional parent report.

## WNV®

Wechsler® Nonverbal Scale of Ability is a nonverbal measure of ability for culturally and linguistically diverse groups. It is ideal for nonverbal measurement of ability among individuals who are neither English-language nor Spanish-language proficient, or who have other language considerations.

## RBANS® Update

The RBANS® Update is a brief battery to assess cognitive decline or neurocognitive status in the following domains: Immediate Memory, Visuospatial/Constructional, Attention, Language, and Delayed Memory.

## ILS®

Use the Independent Living Scales® to help identify areas of competence and determine the most appropriate living setting for adults who are experiencing a decline in cognitive functioning.

## BCSE & TFLS

Evaluate cognitive functioning in patients with dementia, mild MR, TBI, or Alzheimer's with the Brief Cognitive Status Exam, and administer the Texas Functional Living Scale screening tool to help identify the level of care an individual requires.

## TOPF

The Test of Premorbid Functioning enables clinicians to estimate an individual's level of cognitive and memory functioning before the onset of injury or illness.

## CLQT+

The Cognitive Linguistic Quick Test quickly obtains severity ratings for five primary domains of cognition in English or Spanish-speaking adults with known or suspected neurological impairment.

## RehaCom®

A comprehensive computerized therapy tool for the rehabilitation of cognitive impairment. Improve cognitive functions and compensatory skills in attention, memory, executive functions, and visual field.

*There's more to explore!*

For pricing, ordering, additional products, and more information, please visit [PearsonAssessments.com](https://www.pearsonassessments.com)

# Memory

As the basis for learning at any age, and a barometer for our ability to live independently as we get older, memory is a critical skill throughout our lives. These tools assess multiple factors affecting memory, and provide reliable information on short and long-term memory functions in children and adults.

## WR RAML™ 3

### WRAML™3

The Wide Range™ Assessment of Memory and Learning, Third Edition measures short- and long-term memory functioning and the ability to learn new material in children and adults. This engaging lifespan assessment includes updated norms, content, and artwork reflective of today's population.

#### Key Benefits

- Enhanced items and structure that simplify administration
- New items measure delayed memory
- Content relevant for adult populations
- Updated norms and artwork reflective of our diverse population

10-120 min

C

Visit [PearsonAssessments.com/WRAML3](https://www.pearsonassessments.com/wraml3) for more details.

### Everyday Memory Survey

Declining memory function is one of the most common complaints among individuals as they age, and it can be difficult for practitioners and medical professionals to determine whether it's due to cognitive impairment or developmentally normative declines in memory. The Everyday Memory Survey allows practitioners and medical professions to screen for individual memory-related behaviors in daily life to determine if further testing or a referral is needed. *It is the only adult memory screener with the comprehensive normative data needed to determine next steps.*

10 min

C

## WMS®-IV

Wechsler® Memory Scale, Fourth Edition is the most widely used scale of adult memory. In response to changing demographics, increased caseload, and new research and clinical needs, this latest edition of the memory test includes four new subtests and modifications to three existing subtests. This edition was co-normed with the WAIS®-IV.

## ACS & ACS Social Cognition

Advanced Clinical Solutions for the WAIS®-IV and WMS®-IV enhances the clinical utility and expands the construct coverage of these respected tests. The ACS tool provides a common and related sample linking WAIS-IV, WSM-IV, estimated premorbid intellectual functioning, executive function, social cognition, and daily living.

## CVLT®3

California Verbal Learning Test®, Third Edition is the most comprehensive assessment of verbal learning and memory for older adolescents and adults. In the CVLT3, an examinee listens to a series of words and is then asked to recall the terms and the category to which they belong.

## CVLT®-C

The CVLT® - Children's Version is used to assess verbal learning and memory in children and adolescents. Useful in various settings to identify learning and memory difficulties, isolate deficient learning strategies, and assist in designing remediation programs.

## NEPSY®-II

The NEPSY®, Second Edition is the only single measure that allows clinicians to create tailored assessments across six domains, specific to a child's situation. NEPSY-II results provide information relating to typical childhood disorders, enabling accurate diagnosis and intervention planning for success in school and at home.

***There's more to explore!***

For pricing, ordering, additional products, and more information, please visit **PearsonAssessments.com**

# Executive Function

These tools measure a person's ability to organize, focus, prepare, monitor, and modify their approach to problem solving and regulating their behavior.

## D-REF

Delis-Rating of Executive Function lets clinicians quickly report the frequency of observed behaviors that identify executive function problems in children and adolescents, such as ADHD-Combined, ADHD-Inattentive, Traumatic Brain Injury, Autism/Asperger's Syndrome, neurological/psychiatric disorders, and learning disabilities.

## Brown EF/A Scales™

Go beyond other measures to screen and assess a wider range of impairments of executive functioning and attention, giving you a much better platform from which to make treatment decisions. Scales provide a comprehensive evaluation of an individual's ADHD symptoms by analyzing their behavior using multiple perspectives: the examinee's self-perspective, the teacher's perspective, and the parents' perspective.

## D-KEFS™

The Delis-Kaplan Executive Function System™ evaluates higher level cognitive functions in both children and adults. It can help determine how executive functions affect work and school performance with nine subtests that help provide a comprehensive evaluation.

***There's more to explore!***

For pricing, ordering, additional products, and more information, please visit **[PearsonAssessments.com](https://www.pearsonassessments.com)**

# Development

As research clearly shows, the steps we take with little ones from birth to age five are critical in fostering success in its many forms, and in shaping lifelong learners. These well-researched assessments help you identify and remediate a wide range of development issues, with game-like activities that make the evaluation enjoyable for those you serve.

## Bayley™-4

Bayley™-4 is the most comprehensive assessment tool for determining developmental delays in children. It assesses infant and toddler development across five scales: Cognitive, Language, Motor, Social-Emotional, and Adaptive Behavior. A digital delivery option is available via Q-global, allowing greater flexibility, ease of use, and improved accuracy.

## PEDI-CAT

The Pediatric Evaluation of Disability Inventory Computer Adaptive Test is a computer adaptive caregiver report that measures Daily Activities, Mobility, Social/Cognitive, and Responsibility. It's designed for use with children and youth with a variety of physical and/or behavioral conditions and includes a separate Autism scale.

# Sensory & Motor

## Sensory Profile™ 2

The Sensory Profile™ 2 family of assessments provides standardized tools to help evaluate a child's sensory processing patterns in the context of home, school, and community-based activities.

## BOT™-2

The Bruininks-Oseretsky Test of Motor Proficiency Second Edition (BOT™-2) delivers the most precise and comprehensive measure of motor skills, both gross and fine. It contains eight subtests and is easy to administer.

# Achievement

Identifying learning disabilities in children and adults is the first step in getting them the support they need. These tools will give you the reliable and valid information to measure academic skills relative to reading, writing, math, and fluency — and put them on the path to success!

## PPVT™-5

The Peabody Picture Vocabulary Test™, Fifth Edition is a norm-referenced and individually administered measure of receptive vocabulary based on words in Standard American English. It directly compares receptive and expressive vocabulary when administered with the EVT-3, and measures progress using the included Growth Scale Values.

## EVT™-3

Expressive Vocabulary Test™, Third Edition is an individually administered test of expressive vocabulary and word retrieval. It identifies strengths and weaknesses in the specific domain of semantics and language development, and when administered with the PPVT-5, directly compares receptive and expressive vocabulary.

## WRAT™5

The Wide Range™ Achievement Test, Fifth Edition helps to identify possible learning disabilities through assessment and monitoring of reading, spelling, and math skills as well as premorbid verbal intelligence in lower functioning patients.

## KTEA™-3

Kaufman Test of Educational Achievement, Third Edition gives you tools to gain a deeper understanding of achievement gaps with an easy-to-score assessment that evaluates key academic skills in reading, math, and written/oral language. KTEA-3 also measures progress, allowing you to adjust intervention plans based on performance.

Available Fall 2020, Wechsler Individual Achievement Test<sup>®</sup>, Fourth Edition (WIAT<sup>®</sup>-4) expands upon the flexibility of this widely used achievement test. Suitable for use in a multitude of settings and available to a wide array of professionals, the newest edition of the WIAT has some exciting updates to help you identify what support students need to *achieve even more*.

WIAT-4 goes beyond the what to uncover the *why*, measuring the key processing areas that drive achievement. Updates include:

**Five new subtests:**

- Phonological Awareness
- Orthographic Fluency
- Decoding Fluency
- Orthographic Choice\*
- Sentence Writing Fluency

**Scoring updates:  
You asked. We listened.**

- Simplified scoring rules for Sentence Composition
- Automated scoring of Essay Composition

**Now included! Dyslexia Index  
Scores in every kit!**

**Paper-and-pencil? Digital?  
A combination of both? You decide!  
WIAT-4 can be administered via**

- Paper-and-pencil
- Q-interactive

*\*Available on Q-interactive only*

Get ready to help them achieve even more! Explore more benefits at [PearsonAssessments.com/WIAT-4](https://www.pearsonassessments.com/WIAT-4)

# Behavior

Like birds of a feather, behavior and school success often go together. Frequently, the reason behind a child's actions runs deeper than a simple desire to be disruptive, and identifying and treating what lies below the surface can drastically improve academic success and school climate. These assessments are key in helping to identify ADD/ADHD, Autism, Oppositional Defiance Disorder, depression, anxiety, and the multitude of other factors that can affect your students' behavior.

## BASC™-3

The Behavior Assessment System for Children, Third Edition offers a powerful set of rating scales to help evaluate the behaviors and emotions of preschool through college-age individuals. The BASC-3 differentiates between hyperactivity and attention problems, and measures areas important for both IDEA and DSM-5 classifications using a triangulation method for gathering information. It analyzes a child's behavior from three perspectives — self, teacher, and parent — and provides access to extensive reports using computer scoring and interpretation for developing FBAs, BIPs, and IEPs.

## Vineland™-3

The Vineland™-3 supports the diagnosis of intellectual and developmental disabilities, and provides valuable information for developing educational and treatment plans. Identify individuals who have intellectual and developmental disabilities, developmental delays, autism spectrum disorders, and other impairments.

## TEA-Ch2

The Test of Everyday Attention for Children, Second Edition uniquely measures separable aspects of attention in a fun and engaging way. It helps differentiate patterns of strengths and weaknesses in cognition, inform appropriate interventions, and monitor outcomes.

## Finding the right products has never been easier!

We know you don't always have time to explore all the different assessments that are available. The Solution Finder on our website allows you to quickly find the products you are interested in. Products are listed by specialty area and then you can filter products by additional categories.

### Here's how it works

### Once you select a topic

Use the filters on the left to sort the products you are interested in by what they measure, age range, language, and more. Relevant products are then listed alphabetically for you to browse.

We offer many more assessments than can fit in this guide, but you can easily find them on our website. Visit [PearsonAssessments.com/SolutionFinder](https://www.pearsonassessments.com/SolutionFinder) or scan the QR code today to start exploring!

# Improving Lives Together

## Consider us your partner for all of your training and professional development needs

Take advantage of our convenient and time-saving professional development options through every phase in your career.

## Webinars & on-demand learning

Complimentary and paid sessions are available live and on-demand, allowing you to learn when it's convenient for you.

Learn more about our training and professional development options at [PearsonAssessments.com/Training](https://PearsonAssessments.com/Training).

## On-site and web-based workshops

Presented by national industry experts, test authors, or Pearson on-staff consultants, our on-site workshops provide training for psychologists, counselors, social workers, OTs, SLPs, and other staff.

## Early Career Professionals Resource Center

Our resource hub is designed to help you get your career off to the best start possible and to cover your spectrum of needs. Available resources include specialized tools for clinical psychologists, school psychologists, SLPs, and OTs.

Hit the ground running at [PearsonAssessments.com/EarlyCareer](https://PearsonAssessments.com/EarlyCareer).

## Provide valuable data and help shape the final product!

Participate in Field Research! Sign up at [PearsonAssessments.com/FieldResearch](https://PearsonAssessments.com/FieldResearch).

# Easy ways to order

## How to order

### Web

The **quickest way to order** is via our website at **PearsonAssessments.com**

### Phone

**+1 (800) 627-7271**

### Fax

Prior to faxing, review the fax order checklist at: **PearsonAssessments.com/Fax**

**+1 (800) 232-1223**

### Purchase orders

Customers purchasing on behalf of an organization with an established account may utilize purchase orders in the website checkout as well as by web form or fax. Learn more: **PearsonAssessments.com/PO**

### Questions about ordering?

We've got you covered. Visit **PearsonAssessments.com/Ordering** for helpful hints on:

Account creation • Qualifications • Manual ordering • Purchase orders • Mail-in scoring

## Additional support

Just as there are many ways to order, there are different support options available at:

**PearsonAssessments.com/Contact**

- Read online help articles
- Submit an inquiry to Customer Support
- Call Customer Support:  
**+1 (800) 627-7271**

## Things to remember!

Jot down your **organization ID number** so it's saved. You can find this listed as 'Customer Account' on a past invoice if you have one available:

Save your **Q-global account number**. Log into Q-global, then access My Account> Account Information. The inventory account number is your Q-global number.
