iOS support update

As of September 2020, we will no longer support iOS 11 or earlier on Q-interactive®. We advise planning to update your iOS to the current version prior to September 2020. Find out what hardware and iOS versions Q-interactive supports on our website.

WISC–V Coding Subtest update

If you are a WISC®–V digital coding subtest user, you’ve probably already seen several communications regarding the use of this subtest and our guidance to suspend use of it. You can find that communication and all of the reasons why here, along with guidance on alternative means to achieve the desired scores. There will be more information available in the next few weeks.
Q-global update

You may have seen that, in response to COVID-19, we have made many test materials (manuals, stimulus books, etc.) available at no additional cost for a limited time, and placed them in the Q-global® Resource Library. As a Digital Access Library user, you already have access to all of those materials for the tests available in your library. If you are looking for access to material from a test that is not in your library, you will need to use your original Q-global account access credentials (not associated with DALS) or reach out to customer support. *You will only find materials in your DALS account that are related to tests included in your library.*

WHAT’S NEW

What’s new and available now?

**PEDI-CAT** (Pediatric Evaluation of Disability Inventory Computer Adaptive Test) is a computer-adaptive caregiver report which measures Daily Activities, Mobility, Social/ Cognitive and Responsibility. It’s designed for use with children and youth with a variety of physical and/ or behavioral conditions.  
[Learn more →](#)

**MACI®–II** (Millon® Adolescent Clinical Inventory, Second Edition) was developed specifically for teens and adolescents to assess mental health and behavior concerns often unique to their age group. Information gathered from the MACI-II is invaluable in making reliable diagnostic and treatment decisions.  
[Learn more →](#)

**WIAT®–4** (Wechsler Individual Achievement Test®, Fourth Edition) is an individually administered achievement test for use in a variety of settings. This revised edition features new subtests and expanded scoring capabilities, automated scoring and one subtest available only on Q-interactive.  
[Coming Fall 2020!](#)
CELF® Preschool-3 (Clinical Evaluation of Language Fundamentals® Preschool, Third Edition) assesses aspects of language necessary for preschool children to be successful in the classroom. This new edition coming to Q-interactive has new index scores for Academic Language Readiness and Emerging Literacy.
