DIGITAL ASSESSMENT LIBRARY
for schools

Going digital in your district has never been easier!

Want to improve diagnostic assessment outcomes for students while reducing costs?

Want to level out your assessment costs from year to year and simplify purchasing?

Ready to improve efficiency and accuracy by digitally administering, scoring, and reporting?

Now's the time…

For a fixed, annual price—based on the number of district **Individualized Education Plans* (IEPs)** in place for students—your district can have a license to access and use Pearson's Digital Assessment Library for Schools. There's never been a better time to take advantage of these easy-to-use systems to administer, score, and report/store assessment data for all student evaluations in the district, whether you're testing for eligibility or progress monitoring.

Unlimited use allows your district to test all of your referrals, including gifted, home, and charter school students.

For the same, simple annual price, you can test:

- with whatever assessments you need;
- as many times as you need to;
- using as many examiners as you need to do it.

Delivered through Q-interactive® and Q-global®

Q-interactive is an intuitive, portable system that uses two iPad® devices connected by Bluetooth®. Q-global is our web-based system for self-administered or proctored assessments. Use it to administer, score, and generate reports for assessments, even those with paper forms.

The library provides unlimited use of these systems, access to digital stimulus books and manuals, and extensive training resources. The assessments and resources cover Ability, Achievement, Behavior, Mental Health, Speech and Language, and Motor Sensory, all of which automatically upgrade to new editions as they're published.

The Digital Assessment Library may reduce what you're spending on assessments associated with your evaluations by providing a complete library with unlimited use—all available to you for a flat, annual price.

* Reported annually by the district to the state or Office of Special Education and Rehabilitative Services (OSERS).

How much did your district spend on assessments last year?

Let us help you evaluate what unlimited access to Pearson's Digital Assessment Library can do for your district.
