NEW!
Digital Assessment Library for University Student Mental Health

Do you have the tools to stay on top of anxiety, depression, suicidal ideation, and other mental health challenges facing your students today?

Every institution of higher education is dealing with a student mental health crisis. In an effort to make sure any college student struggling with mental health issues can be identified, Pearson has built the Digital Assessment Library (DAL) for University Student Mental Health.

Delivered online through Pearson's Q-global® platform, this library of digital assessments has been designed as an affordable, unlimited-use subscription so that college counselors and student mental health professionals have access to the highest quality mental health assessments at a flat, worry-free annual cost without concerns about additional fees (or running out of response booklets).

Library pricing  *Pricing per institution based on reported full-time enrollment

*If your college or university counseling center uses Titanium Schedule, consider this limited library of five assessments covering anxiety, depression, quality of life and more. Look for the Titanium Schedule logo on the back of this flyer next to included assessments.
**Which digital mental health assessments are included?**

### BASC™-3

**BASC™-3** offers a set of rating scales to help evaluate the behaviors and emotions of individuals, differentiating between hyperactivity and attention problems, and measures areas for both IDEA and DSM-5 classifications. Available in Spanish.

- **Age:** 2–21
- **Time:** 10–30 min

### BASC™-3 BESS

**BASC™-3 BESS College Form** provides a quick, efficient, valid, and reliable way to screen large numbers of students while guaranteeing security and privacy.

- **Age:** 18–25
- **Time:** 5–10 min

### Beck Scale for Suicide Ideation®

**Beck Scale for Suicide Ideation®** is an evaluation that helps measure a broad spectrum of attitudes and behaviors clinicians routinely consider when assessing a patient’s suicide risk.

- **Age:** 17–80
- **Time:** 5 min

### Beck Anxiety Inventory®

**Beck Anxiety Inventory®** is a brief, criteria-referenced assessment for measuring anxiety severity and level, with patients responding to 21 items rated on a scale from 0 to 3.

- **Age:** 17–80
- **Time:** 5 min/inventory

### Beck Hopelessness Scale®

**Beck Hopelessness Scale®** measures attitudes about the future. It can be administered with the BDI®-2 and BSS® for a complete evaluation.

- **Age:** 17–80
- **Time:** 5 min

### Beck Depression Inventory®-2

**Beck Depression Inventory®-2** is a brief, criteria-referenced assessment for measuring depression severity. This widely used instrument for detecting depression is more clinically sensitive than ever.

- **Age:** 13–80
- **Time:** 5 min

### Brown EF/A Scales™

**Brown EF/A Scales™** goes beyond other measures to screen and assess a wider range of impairments of executive functioning and attention.

- **Age:** 3+
- **Time:** 10–25 min

### Delis-Rating of Executive Function and D-REF Adult

**Delis-Rating of Executive Function and D-REF Adult** let you quickly and easily administer, score, and report the frequency of observed behaviors that identify executive function problems.

- **Age:** 5–79
- **Time:** 5–15 min/inventory

### Quality of Life Inventory

**Quality of Life Inventory** is a psychological assessment of well-being and satisfaction with life and yields an overall score based on the “Sweet 16” areas that make up quality of life, including love, work, and play.

- **Age:** 17+
- **Time:** 5 min
