DASH 2
SECOND EDITION
Detailed Assessment of the Speed of Handwriting

Detailed Assessment of Speed of Handwriting, Second Edition

Identify children and young adults with handwriting speed difficulties.

DASH-2 Overview

Detailed Assessment of Speed of Handwriting, Second Edition (DASH-2) is a reliable measure of handwriting speed for children and young adults. DASH-2 helps identify functional handwriting difficulties and provides both qualitative and quantitative information useful for intervention planning.

DASH-2 Benefits

- Provides **subtest Scaled Scores** and a **Total Standard Score** for handwriting speed
- Offers **objective evidence** on which to base applications for special accommodations in education settings
- Suitable for **both individual and group** administration
- Offers reliability with **updated normative sample** collected between 2021 and 2023

DASH-2 Features

DASH-2 includes 4 core subtests that allow comparison of handwriting performance during tasks with varying demands.

- Copy Best
- Copy Fast
- Alphabet Writing
- Free Writing

A supplementary Graphic Speed task measures control of the writing implement at speed.

Qualification Level: A

Age Range: 8 to 25 years

Completion Time: 20-30 minutes
