Summer is right around the corner, and while this one may feel a bit different than what we are used to, one silver lining is that we will all have lots of time to discover new worlds, learn about our history, and travel...all through reading! Children are inherently curious, and giving them plenty of opportunities to make these discoveries often leads to a hunger for more.

This list of titles is adapted from the Association for Library Service to Children 2020 Notable Books list and can help guide you as you select books for your child’s summer reading adventures. Many of these titles are available electronically through your local library.
