

Your **BASCpack** Has Arrived!

Thank you for your participation in the **BASC-4 standardization!** This project is huge and will require all hands on deck. To help you coordinate the completion of the rating forms with candidates, their families, and teachers, we have created this bundle of materials.!

Here's what you will find inside:

1. **Teacher information postcards:** These are tangible cards your candidate can take to the teacher who will complete the rating form. This card is intended to help the teacher learn more about the project, troubleshoot any issues receiving the form, and receive your contact information.
2. **Parent "cheat sheet" bookmarks:** These can be used by the candidate's parents to help them decide which teacher to ask to participate, especially if you are not familiar with the candidate's school or teachers.
3. **BASC-4 info sheet:** This is a one-page document about the BASC-4 standardization. Use it in whatever capacity you need to—for recruitment, to legitimize the project, or as a talking point with candidate's families. You decide how best to use this document.
4. **Troubleshooting tips:** This is for YOUR use and provides tips on what to try first if you encounter any technology issues when sending links from the portal.
5. **Water bottle stickers:** This small pack of water bottle stickers is a fun incentive for you to use as you see fit. Use them to reward candidates for completing the self-report form or obtaining a teacher form, or give them to teachers for submitting rating forms.

These ideas and collateral pieces were created primarily for situations where you, as the examiner, may not have direct contact with your candidate's teacher. There may be MANY scenarios where you work with or have a connection with the teacher. In that case, **personal communication is always preferred!**

If you run out of print copies, these items can be found on the Examiner Hub too.

Thank you!
