QUALIFICATION POLICIES & USER ACCEPTANCE FORM

Qualifications Policy

Please establish your qualification level for this and future purchases by completing the User Acceptance Form. You may also complete the form online at PearsonClinical.com.

Pearson is committed to maintaining professional standards in testing and professional practice as presented in the *Standards for Educational and Psychological Testing* published by the American Educational Research Association (AERA), American Psychological Association (APA), and the National Council on Measurement in Education (NCME). A central principle of professional use is that individuals should use only those products for which they have the appropriate training and expertise. Pearson supports this principle by stating qualifications for the use of particular tests and interventions, and selling products to individuals who provide credentials that meet those qualifications. The policies that Pearson uses to comply with professional testing practices are described below.

The "User" is the individual who assumes responsibility for all aspects of appropriate use, including administration, scoring, interpretation, and application of results. Some tests may be administered or scored by individuals with less training, as long as they are under the supervision of a qualified User.

Each test manual will provide additional detail on administration, scoring, and/or interpretation requirements and options for the particular test.

We accept orders from individuals when a User Acceptance Form has been submitted and accepted. All products are classified by a User qualification code. See the specific product descriptions in the catalog or on the Web for these qualification levels.

QUALIFICATION LEVEL A:

There are no special qualifications to purchase these products.

QUALIFICATION LEVEL B:

Products may be purchased by individuals with:

- A master's degree in psychology, education, occupational therapy, social work, or in a field closely related to the intended use of the assessment, and formal training in the ethical administration, scoring, and interpretation of clinical assessments.

OR

- Certification by or full active membership in a professional organization (such as ASHA, AOTA, AERA, ACA, AMA, CEC, AEA, AAA, EAA, NAEYC, NBCC) that requires training and experience in the relevant area of assessment.

OR

- A degree or license to practice in the healthcare or allied healthcare field.

OR

- Formal, supervised mental health, speech/language, and/or educational training specific to assessing children, or in infant and child development, and formal training in the ethical administration, scoring, and interpretation of clinical assessments.

QUALIFICATION LEVEL C:

Tests with a C qualification require a high level of expertise in test interpretation, and can be purchased by individuals with:

- A doctorate degree in psychology, education, or closely related field with formal training in the ethical administration, scoring, and interpretation of clinical assessments related to the intended use of the assessment.

OR

- Licensure or certification to practice in your state in a field related to the purchase.

OR

- Certification by or full active membership in a professional organization (such as APA, NASP, NAN, INS) that requires training and experience in the relevant area of practice.
