Review360® for SLPs

Better communication.
Better use of your time.

Progress Monitoring and Intervention with Review360® for SLPs

Students with speech, language, and hearing disorders need individualized planning, detailed observation of skills, and thorough reporting in order to meet compliance requirements and realize developmental progress. Review360 for SLPs is a comprehensive and integrated web-based tool that delivers robust data collection and reporting along with evidence-based interventions to achieve the best possible outcomes for students, staff, and schools.

Pearson

Review360® for SLPs

Challenges. You Have Them.

- Data is critical but is cumbersome to collect
- Different parts of your work call for multiple reporting needs
- Developing individualized interventions can be time consuming
- Appropriate progress monitoring needs to be accurate and timely
- You spend as much time putting your data together as you do writing the report
- Finding effective and visual ways to communicate with classroom teachers and parents

Mandated requirements, mountains of paperwork, and high levels of individualization required for each student make for a complicated and time-intensive data collection and reporting process.

Problem. Solved.
Review360 for SLPs provides:

- 78 Ready-to-use, well-developed goals in a goal bank (you can also add your own)
- Automated and efficient progress monitoring and streamlined key data collection tasks
- 74 Ready-to-use, evidence-based interventions (with references) and the ability to add your own
- Comprehensive charts and reports at the click of a button for sharing with parents, teachers, and other professional team members

Review360 tackles an SLP's biggest challenges with a robust yet easy-to-use platform. Evidence-based interventions are integrated with progress monitoring and reporting that provides efficient data collection and improved communication.
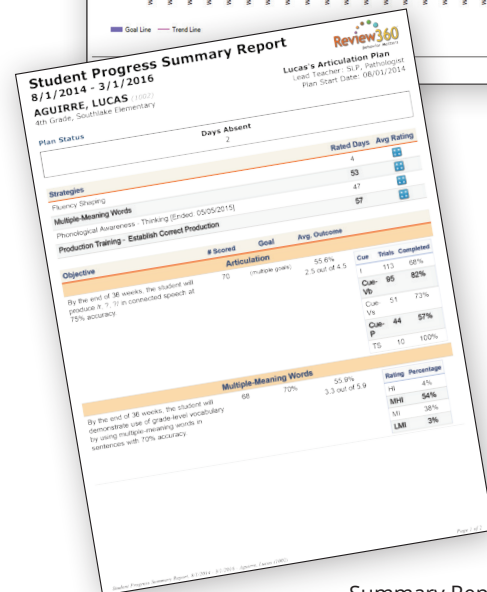

Outcomes. With Evidence.
You and your students will experience:

- More effective and productive use of time
- Positive outcomes that are easily demonstrated
- Increased accountability and compliance with mandated requirements

Progress monitoring, a detailed goal bank, and evidence-based intervention options—any time, any place. Save your time, watch your students grow, and improve your ability to communicate the value of your work.
