

Review360: Special Education Benefits and Solutions

Special Education Benefits

Teacher Benefits

Review360® provides special education teachers with professional development, evidence-based intervention strategies, guided implementation support, and a highly configurable data collection system with advanced reporting capabilities. These features help support the teacher as they improve student outcomes. The web-based system enhances communication between general education and special education teachers for students who are included all or part of the day. The data captured in Review360 assists in making decisions about IEP goals and objectives, strategy effectiveness, and ESY placement.

Student Benefits

Students are engaged in a comprehensive program that includes consistent interactions resulting in positive outcomes that can be detailed in reports and charts. Review360 provides evidence-based strategies that, when used with fidelity, result in positive social-emotional growth that is reflected in increased academic achievement. Technology enabled daily communication with parents is easy, and helps improve the school to home connection and extends the benefits of the program beyond the classroom.

School / District Benefits

Review360 promotes continuity of services. Consistent data collection helps support progress monitoring, the use of intervention strategies, and better reporting. This leads to improved time management, a more efficient use of resources, more accountability, support with compliance monitoring, and better decision making for ESY, the use of 1 to 1 aids, out of district placements, etc.

Special Education Solutions

Engage

Focus on a single population and engage all stakeholders in a proven path to better student outcomes using progress monitoring, strategies and interventions, professional development, and incident management.

Expand

Expand your implementation and address the needs of additional populations. Review360 has evidence-based strategies and interventions as well as multiple progress monitoring methodologies that can be used to support a variety of students with specific needs.

Enterprise

Craft a customized, districtwide solution for your special education program. This alignment will help all stakeholders successfully navigate the complexity of special education making the experience more successful for teachers and students.
