

National Board for Professional Teaching Standards (NBPTS) 2022 Projects by Start Date and Time Zone

Updated: February 9, 2022

Because of the ongoing pandemic, National Board 2022 scoring will be conducted synchronously. “Synchronous” scoring means there will be real-time virtual team collaboration following a regular daily schedule that all scoring team members will observe together. Assessors will work from home or in a private space in their school, with video cameras operating to facilitate group interaction.

Regular working hours are 8:00am to 4:30pm, Monday through Friday, according to the time zone in which each scoring team is scheduled to work. Please check offer letters for time zones before accepting. General information about National Board scoring components is available on the recruiting website.

Note: Exact scoring dates will be reflected in all scoring offers.

Guide to Abbreviations of Developmental Levels

Abbreviation	Developmental Level	Age Range
