

National Board for Professional Teaching Standards (NBPTS) 2024 Projects by Start Date and Time Zone

Updated: January 24, 2024

National Board 2024 scoring will be conducted both synchronously and in person in scoring sites. “Synchronous” scoring means there will be real-time virtual team collaboration following a regular daily schedule that all scoring team members will observe together. Assessors will work from home or in a private space in their school, with video cameras operating to facilitate group interaction. No working in public areas is permitted.

Regular working hours for all initial certification components (1-4) are 8:00 am to 4:30 pm, Monday through Friday, according to the time zone in which each scoring team is scheduled to work. In a synchronous scoring team, assessors may be hired to work in a time zone that is different from the one in which they live. Please check offer letters for time zones before accepting. All synchronous time zones are in Daylight Saving time.

In-person scoring sites are:

Charlotte, North Carolina, June 24 to July 31
6000 Fairview Road, SouthPark Towers Suite 1200

Los Angeles, California, June 24 to July 31
1800 North Vine St.

Austin, Texas, July 8-30
400 Center Ridge Dr.

The earliest synchronous scoring teams will begin training on Monday, June 17th. The last scoring teams will finish Wednesday, July 31st. In-person training activities are planned to begin June 24th. Planned working dates will be reflected in all scoring offers. Most assessors receive offer letters in February and March.

Holidays are Juneteenth on June 19th and Independence Day July 4-5. No training or scoring activities will take place during holidays.
