

## National Board for Professional Teaching Standards (NBPTS)

### 2026 Projects by Start Date and Time Zone

Updated: November 13, 2025

**The National Board 2026 scoring schedule overview will be posted at this location no later than February of 2026.**

In National Board scoring, there is real-time team collaboration, following a regular daily schedule that all scoring team members observe together. Remote assessors must work from home **or** in a private space in their school, with webcams operating to facilitate group interaction. No working in public areas is permitted. All scoring work must take place within the United States.

The earliest scoring teams will begin training on Tuesday, June 23<sup>rd</sup>, with self-paced paid prework to be completed prior to that day. The last scoring teams will finish Friday, July 31<sup>st</sup>. Planned working dates will be reflected in all scoring offers. Most assessors receive offer letters in February and March, with NBCTs receiving priority for offer letters.

**2026 Holidays** are Juneteenth on June 19<sup>th</sup> and Independence Day observed on July 3<sup>rd</sup>. No training or scoring activities will take place during holidays.
