National Board for Professional Teaching Standards (NBPTS)
2024 Projects by Start Date and Time Zone
Updated: December 4, 2024

National Board 2024 scoring will be conducted both synchronously and in person in scoring sites. “Synchronous” scoring means there will be real-time virtual team collaboration following a regular daily schedule that all scoring team members will observe together. Assessors will work from home or in a private space in their school, with video cameras operating to facilitate group interaction.

Regular working hours for all initial certification components (1-4) are 8:00 am to 4:30 pm, Monday through Friday, according to the time zone in which each scoring team is scheduled to work. In a synchronous scoring team, assessors may score in a time zone that is different from the one in which they live. Please check offer letters for time zones before accepting. All synchronous time zones are in Daylight Saving time.

The initial certification scoring calendar for 2024 will be available starting in early February. The earliest scoring teams will begin training on Monday, June 17th. The last scoring teams will finish Wednesday, July 31st. In-person training activities are planned to begin June 24th. Planned working dates will be reflected in all scoring offers. Most assessor offers are sent in February and March.

**Holidays** are Juneteenth on June 19th and Independence Day July 4-5. No training or scoring activities will take place during holidays.

Guide to Abbreviations of Developmental Levels
