

What features should your English language assessment have?

The most effective, useful and efficient ELL assessment will make it possible to:

- Check progress more frequently and from year to year—help inform instruction and close the achievement gap.
- Allow students to self-administer on tablet devices—save time and provide a more fun and interactive testing experience.
- Provide immediate results through the use of automated assessment and scoring—eliminate waiting weeks or months for results.
- Demonstrate alignment with WIDA and other key state standards, as well as correlations between tests—predict results.
- Provide parent/guardian report in English, Spanish, and Chinese.

TELL has all these important features and benefits

TELL™—the popular Test of English Language Learning by Pearson is a totally new type of assessment for English language proficiency that:

- ✔ Can screen, diagnose and monitor the progress of ELLs in grades K–12.
- ✔ Provides students with a less-stressful, more game-like and engaging testing experience.
- ✔ Automatically scores results and delivers them online in minutes.
- ✔ Self-administered on tablet device.
- ✔ Makes it easier for educators to assist ELLs at every step of their journey to English language proficiency with longitudinal reporting.
- ✔ Provides parent reports in both English and Spanish.
