## **What is Renewal?**

National Board Certified Teachers must complete the renewal process prior to certification end date and can only renew certification in their original certificate area. The renewal profiles are scored only in Charlotte, NC by one or more current National Board Certified Teachers (NBCTs).

## **What is a Component?**

Throughout its more than 25-year history, the National Board has sought to review and revise its standards and certification process to reflect best practices in teaching. Under the new revision, certification now consists of four components: written assessment of content knowledge, reflection on student work samples, video and analysis of teaching practice, and documented impact and accomplishments as a teaching professional.

- Component 1: Content Knowledge
- Component 2: Differentiation in Instruction
- Component 3: Teaching Practice and Classroom Environment
- Component 4: Effective and Reflective Practitioner
