

MMPI-A-RF: Advanced Interpretation

Presented by: Robert P. Archer, PhD, ABPP

Monday, April 26, 2021

12:00 p.m. to 1:30 p.m. Eastern

Sponsored by Pearson Clinical Assessment

Overview

This webinar will provide attendees with further information on the MMPI-A-RF development and evidence-based interpretation, and give practitioners additional details on how to interpret MMPI-A-RF results in various settings. Dr. Archer will offer illustrative case examples that demonstrate how using the MMPI-A-RF can enhance clinical effectiveness and efficiency.

This webinar is designed for individuals familiar with the MMPI-A-RF, for example, those who have completed the 60-minute MMPI-A-RF: Basic Overview webinar or read Dr. Archer's book *Assessing Adolescent Psychopathology: MMPI-A/MMPI-A-RF* (4th ed.).

Learner Outcomes

As a result of this activity, the participants will be able to:

1. Describe major features of the MMPI-A-RF in comparison to the MMPI-A
2. Describe the shift from categorical models of psychopathology to current hierarchical-dimensional models, with specific description of the MMPI-A-RF assessment framework
3. Apply systematic, standardized guidelines to MMPI-A-RF test interpretation
4. Interpret MMPI-A-RF results for several adolescent case examples

Time-ordered Agenda

12:00 p.m. – 12:15 p.m.	Introduction / Why Use the MMPI-A-RF
12:15 p.m. – 12:30 p.m.	Features & Benefits of the MMPI-A-RF
12:30 p.m. – 1:15 p.m.	Case Studies / Comparisons
1:15 p.m. – 1:30 p.m.	Questions & Answers

Earn 1.5 CE credits
